About us

WELCOME TO SAI

Your Ultimate Sports Flooring Partner

We don't just build floors; we build the foundation for champions. As a premier manufacturer, distributor, and turnkey service provider, SAI delivers World class sports surfacing solutions.

Since 2015, we've been trusted to build end-to-end sports infrastructure for educational institutions, commercial gyms, residential societies, and professional stadiums across India. By combining global standards with local expertise, we handle everything from the first consultation to the final installation and everything in between.

WHAT WE DO

Our Core Services

We take the hassle out of court construction by managing the entire process under one roof.

End-to-End Infrastructure

- We handle it all design, sub-base civil work, premium flooring, perimeter fencing, and professional lighting.

Expert Consultation

- We guide you in selecting the perfect materials based on your specific sport, location, and budget

In-House Manufacturing

- We produce our own premium wood systems, rubber tiles, and synthetic turfs to guarantee strict quality control and factory-direct pricing.

Flawless Installation

- Our certified teams build indoor and outdoor arenas to international standards

Maintenance & Aftercare

- We keep your courts game-ready with regular AMC services, sanding, repainting, and emergency repairs

Why Partner WITH SAI?

Skip the construction hassle. As direct manufacturers, SAI delivers 100% turnkey, world-class padel courts from the ground up. You focus on the game we'll build the perfect arena.

Direct Manufacturers

We control the quality from raw material to the final play surface.

Globally Certified

Our systems are compliant with FIBA, ITF, BWF, EN14904, and REACH standards.

Pan-India Execution

No matter where you are in India, our expert installation teams will deliver

Unmatched Support

We provide free product samples, robust post-sales maintenance, and custom flooring solutions.

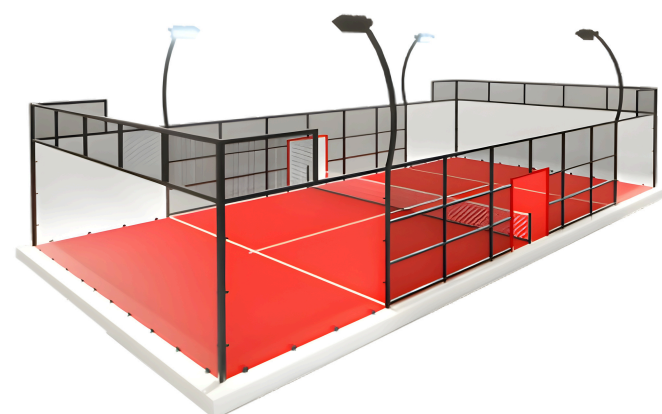

Padel COURT

Constructed by SAI, our padel courts combine advanced engineering, superior glass structures and professional turf systems to create a world-class playing experience.

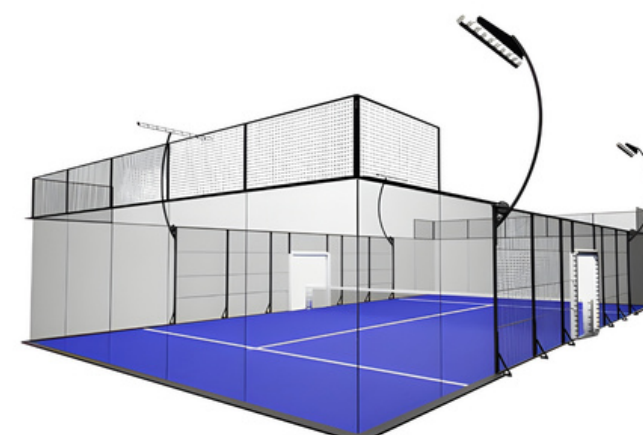

Classic Padel Court

Durable steel and glass design for reliable performance and everyday play.

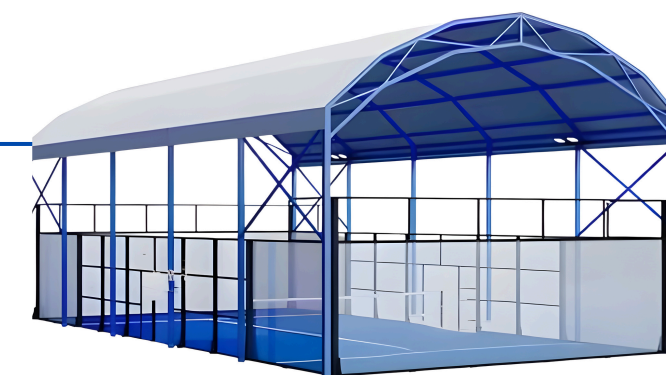

Panoramic Padel Court

Frameless glass structure offering clear views and a premium playing experience.

Super Panoramic Padel Court

Elite full-glass design built for high-end facilities and professional tournaments.

Padel Court with Roof

All-weather court with roofing for uninterrupted play in any condition.

EPDM GRANUELS

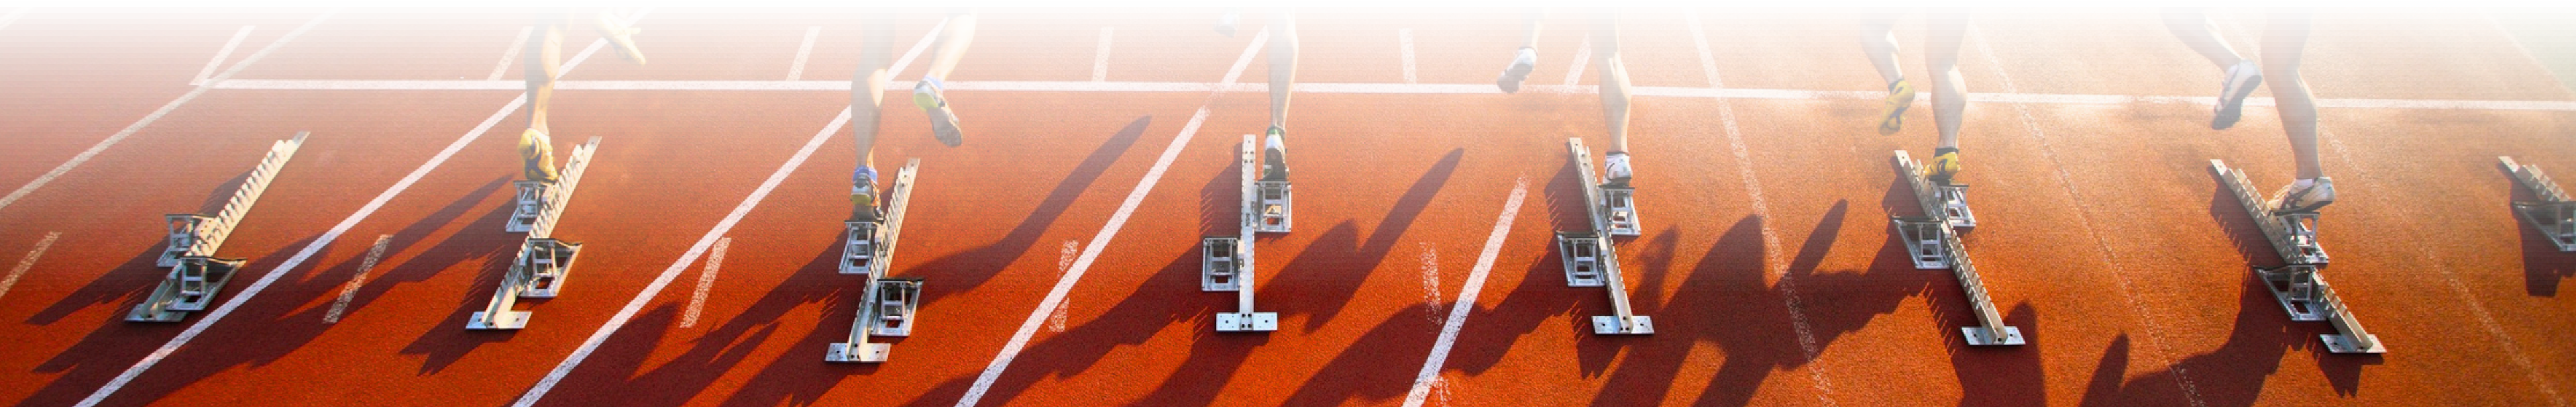

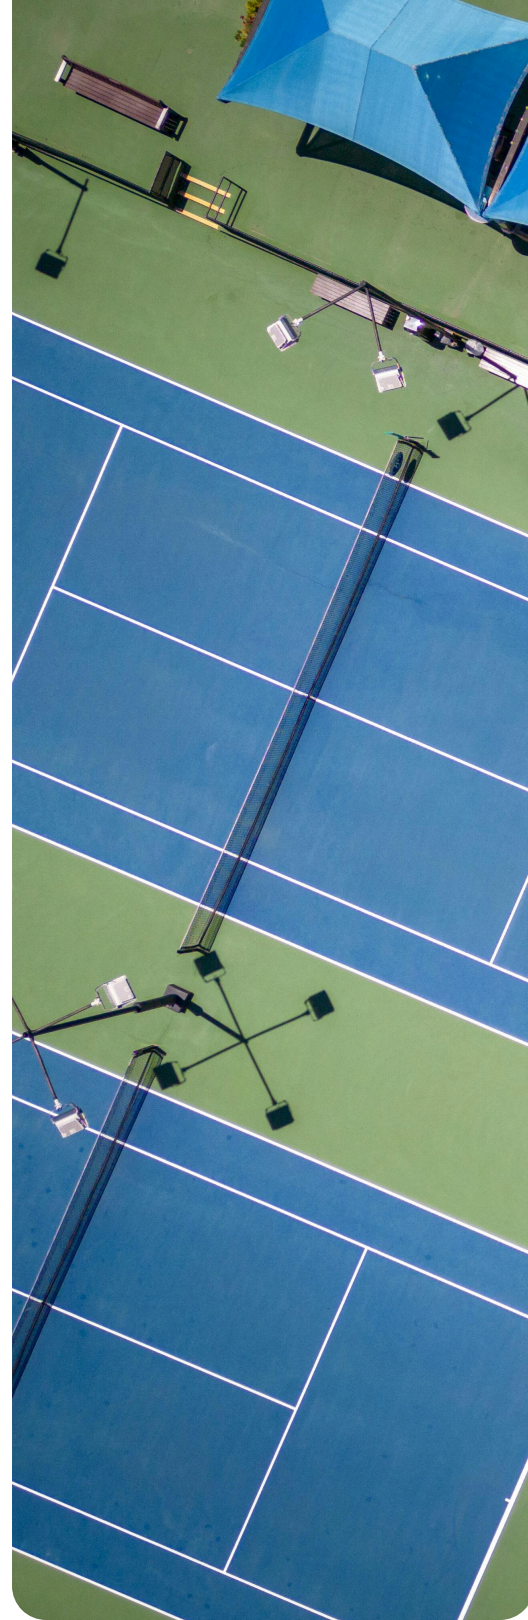

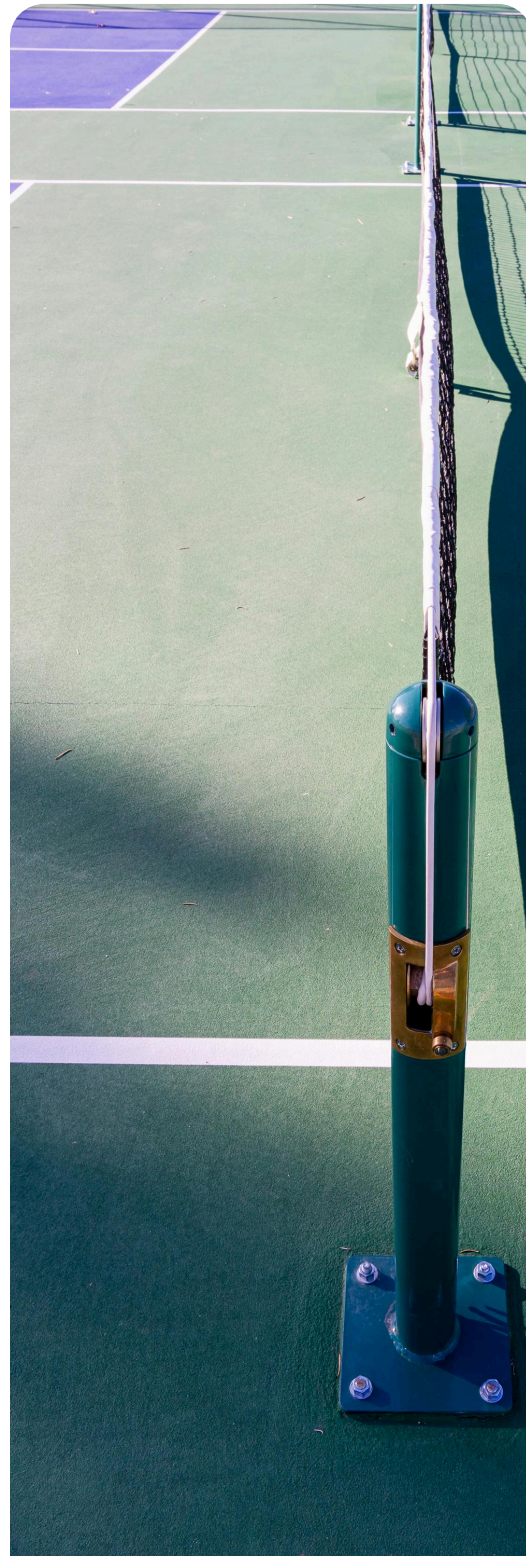

KIDS PLAYING AREA

SAI's EPDM Sports Flooring is designed for safety, durability and long-term performance.

Made from high-quality rubber granules, it offers excellent shock absorption, anti-slip grip and vibrant color stability, making it ideal for jogging tracks, playgrounds and recreational areas. Built to withstand heavy usage and harsh weather conditions, our EPDM systems ensure a safe, low-maintenance and reliable surface for every space.

PICKLEBALL COURT

SAI offers premium pickleball court flooring systems designed for consistent ball bounce, superior grip and enhanced player safety. Built using high-performance acrylic and cushioned surface technologies, our courts meet international standards and are engineered for long-lasting durability in Indian conditions. With certified materials and precision installation, we deliver reliable, low-maintenance surfaces trusted by schools, clubs and professional facilities.

Cricket Turf

High-performance football turf designed for speed, grip and long-lasting play under all conditions.

Certified cricket turf engineered for true bounce, durability and all-weather performance.
